Deep powder. Endless runs. No lift lines. Blissful solitude. But it's the views that will really take your breath away!

One of the world's most beautiful ski resorts, this former gold rush town at an elevation of 8,750 is a National Historic Landmark surrounded by 13,000' and 14,000' peaks.

Above the charming mining town of Telluride is a modern mountain village. A one-of-a-kind, free, pedestrian gondola connects the two towns, making getting around convenient and an experience in itself.

Telluride Ski Resort boasts 2,000 skiable acres offering wide beginner runs, gladed tree skiing, multiple terrain parks, playful groomed blues, open bowls, steeps, chutes, inbounds hike-to, and some of the most advanced terrain in Colorado. No matter your ability, the variety of terrain found in Telluride is equaled only by the spectacular 360-degree views of the surrounding San Juan Mountains

**Condé Nast readers ranked this town the #1 Ski Resort in North America.**
